

Rock Cycle

Review

with

QR codes

Note to the Teacher:

To complete this activity you will need a device (iPod touch, iPod, smart phone, etc) with a QR Code reader app installed on it. Here is a [link](#) to download this app, however there are many QR Code reader app's available to use. Once you have your devices ready, print the pages, cut and laminate. Your students will solve the questions and check their answers by scanning the QR Code. The students record the answers on the recording sheets.

These are the kind of rocks that are formed when lava or magma cools down.

Igneous

Sedimentary

Metamorphic

1

These rocks are formed after weathering makes sediments and the sediments cement together and form into one rock.

Igneous

Sedimentary

Metamorphic

2

Rocks that are formed deep inside the Earth's crust from intense heat and pressure.

Igneous

Sedimentary

Metamorphic
